Due to increasing demand, the Commonwealth Office of Technology is now offering two Windows Enterprise OS tablets as rated services.

Tablets are a lightweight solution for business users who spend a significant amount of time in meetings and on the go. They are great resources for taking notes and collaboration. Enterprise customers can now choose between a standalone Dell Venue 11 or a Microsoft Surface Pro 3 tablet. Both tablets offer Windows enterprise OS, encryption, anti-virus protection, and the Microsoft Office Professional Suite.

Both tablets are also offered in a bundle package, complete with a docking station, keyboard and display cable.
