

## COT Security Alert – Haitian Earthquake Relief Fraud Alert

---

In the wake of the devastating earthquake in Haiti on January 12th, the Security Administration Branch has become aware of possible charity donation scams. Please remember if you receive appeals to donate money in the aftermath of Tuesday's earthquake use caution before responding to those requests. Past tragedies and natural disasters have prompted individuals with criminal intent to solicit contributions purportedly for a charitable organization and/or a good cause.

Therefore, before making a donation of any kind, consumers should adhere to certain guidelines, to include the following:

- Do not respond to any unsolicited (spam) incoming e-mails, including clicking links contained within those messages.  
Be skeptical of individuals representing themselves as surviving victims or officials asking for donations via e-mail or social networking sites.
- Verify the legitimacy of nonprofit organizations by utilizing various Internet-based resources that may assist in confirming the group's existence and its nonprofit status rather than following a purported link to the site.
- Be cautious of e-mails that claim to show pictures of the disaster areas in attached files because the files may contain viruses. Only open attachments from known senders.
- Make contributions directly to known organizations rather than relying on others to make the donation on your behalf to ensure contributions are received and used for intended purposes.
- Do not give your personal or financial information to anyone who solicits contributions: Providing such information may compromise your identity and make you vulnerable to identity theft.

NOTICE: COT is providing this information so that you are aware of the latest security threats, vulnerabilities, software patches, etc. You should consult with your network administrator or other technical resources to ensure that the appropriate actions for these alerts are followed. If you are a network administrator and need additional information, please call the Help Desk at 502.564.7576.
