

Agency Contact Listing

Please see below for definitions of the four Authorizations types and what they are authorized to request.

NOTE: For agencies not listed on the Authorized List, please contact your agency financial office for COT billing code information.

Agency Human Resources (HR) Contact

Approval to submit requests for the establishment, modification and deletion of end user identities and access.

These resources must also have spending authority for core services such as email.

They should understand basic identity protection and privacy practices, and be well-versed in completing and submitting the necessary forms.

Agency IT Services Contact

Approval to request rated and non-rated services from COT (i.e. hardware, software, voice/data services, disk space).

These resources should have basic knowledge of COT rated services, and should be well-versed in completing and submitting any of the necessary forms.

An Agency IT Services Contact has the authority to request anything a Human Resources Contact can as well.

Agency Compliance Contact

These are resources that have been approved to serve as the central point of contact for compliance related matters such as audit and compliance.

These contacts should have an understanding of the various business units within the agency

in order to serve as the business side coordinator for requests that involve matters of compliance with state, local, and federal regulatory compliance.

Agency Security Contact

Agency contact for security related matters, the contact will serve as the focal point for security-related issues specifically affecting the agency.

The agency contact will communicate with COT Security on issues of importance regarding the security of the agency's data, and computing resources.

These resources should be able to act and respond in a timely manner to the information received, based on the agency's established policies and procedures.
