AGENCY CONTACT MEMORANDUM #2014-0401

To: Agency IT Leadership, Technical Contacts

From: James M. Fowler
Chief Information Officer

Date: April 30, 2014

Subject: New educational security video

As part of our agency's continuing effort to increase IT security awareness, Commonwealth Office of Technology has released an informative educational video that includes tips on protecting sensitive information, passwords, e-mail, physical assets, and more.

This video is targeted for end-user awareness on security. It is just over 6 minutes in length and is [available on our website](#).

We encourage all IT leaders and technical contacts to share this link with those who can promote it within your agency. The video can be embedded into websites should your agency wish to publish it online.

Educating employees with basic security knowledge is just one way we can all work together to improve the Commonwealth's security posture.
