

# OCTOBER

# 2018

## National Cybersecurity Awareness Month

**Seamus Hartman, Senior Systems Engineer, Symantec Corp.**

**CISSP, CCNP, JNCIP-SEC, PA-ACE, SSE+ for WSS, SSL-V, Threat Isolation**

Seamus has 25 years of Security and Enterprise Solutions experience across enterprise, banking, education and hospital verticals.

### INTERNET SECURITY THREAT REPORT

Seamus Hartman will review the report, and demonstrate how several of the exploits work, as well as what can be done to avoid, prevent or remediate them effectively.

2:00 PM to 3:00 PM | October 4, 2018 | 101 Cold Harbor, Frankfort, KY

**Matthew Radolec, Security Architect Manager, Varonis**

**CISSP, GPEN, GCFE**

Matthew is a graduate of Penn State and has worked in IT Security since 2011.

### MODERN STATE OF INSECURITY

Are we getting security wrong? Matthew Radolec will describe threats current, evolving and emerging, and the actionable steps needed to stem the flow of data breaches and malicious activity.

9:00 AM to 10:00 AM | October 17, 2018 | 669 Chamberlin Avenue, Fkt

**Justin Greenberger, VP Technical Delivery, Americas, UiPath**

Justin's background includes CIO for GE Digital, leading cybersecurity and audit teams, and now building and managing the developers that build automations within the UiPath platform.

### IMPACT OF RPA IN CYBER

Cybersecurity generates masses of data inside an enterprise. Justin will discuss specific use cases of how Robotic Process Automation can improve security and auditing of data, and Intelligent Automations using Artificial Intelligence.

2:00 PM to 3:00 PM | October 23, 2018 | 101 Cold Harbor, Frankfort, KY
