Commonwealth Office of Technology Rated Service Description

Database creation, modification and support are not included in the rate, but can be performed on an hourly basis at the current CS30 rate.

Application Software assistance: installing, debugging, trouble-shooting, upgrading, or otherwise supporting, application software is available but is not included in the LX10 rate.

COT oversees application software changes to production servers via the Change Management process. Non-scheduled and/or emergency application software changes require Emergency Change Management approval. In addition, COT reserves the right to bill the agency for COT personnel time associated with emergency changes.

If an agency initiates an "incident ticket" for a component(s) covered by the LX services, and it is ultimately determined the issue was application-related, COT reserves the option to bill the agency at the applicable hourly support rate.
